La nostra tradizione, fonte inesauribile di ispirazione, e base del nostro futuro, ci ha condotto attraverso l'unione di "materia e manualità" a perseguire una ricerca stilistica sempre più delineata verso il design.

La duttilità dei nuovi prodotti fonde effetti luce con artigianalità, scintillii di metalli preziosi con concetti quasi minimalisti dei corpi illuminanti... alla ricerca di un perfetto incontro tra luce - ambiente - comfort.

Gli elementi predominanti delle nostre realizzazioni sposano tecnologie led, decori individualizzati, versatilità e personalizzazione del design delle forme.

Our tradition, an inexhaustible source of inspiration, and the basis of our future, has led us through the union of "matter and dexterity" to pursue an increasingly delineated stylistic research towards design.

The ductility of the new products blends light effects with craftsmanship, sparkles of precious metals with almost minimalist concepts of lighting fixtures... looking for a perfect encounter between light - environment - comfort.

The predominant elements of our creations combine LED technologies, individualized decorations, versatility and customization of shape design.

circle

Nel cerchio di un pensiero
a volte mi riposo sognando.
*In the circle of a thought,
sometimes I take a rest...
dreaming*

(Alda Merini)

Ancora il cerchio con il senso di stare intorno e quindi insieme; con il senso di centro dove al centro c'è luce, calore e bellezza.

Circle again, with the sense of being around and therefore together; with the sense of center where in the center there is light, heat and beauty.

square

Abbiamo sfruttato il quadrato per la sua perfetta regolarità geometrica, in quanto simbolo di razionalità costruttiva, capace di unire ordine e armonia.

We exploited the square for his perfect geometric regularity, as symbol of constructive rationality, able to combine order and harmony.

Abbiamo scelto la catena nella sua accezione più positiva. Una concatenazione di forme perfette, la grande catena dell'essere, il punto di contatto di soggetti luminosi.

We have chosen the chain in its more positive meaning. A combination of perfect shapes, the great chain of being, the contact point of bright subjects.

Ispirati dalla natura nella ricerca della forma perfetta, proponiamo il cerchio, una figura che trasmette dinamicità e movimento. Ha un forte potere magnetico mancando completamente di un ogni senso del disordine.

Inspired by nature pursuing the perfect shape, we propose the circle, a figure transmitting dynamism and movement. It has a strong magnetic power, completely lacking of any sense of disorder.
